

Terms & Conditions

Graduation is a special day and we recognise that not all of your friends and family can attend in person, therefore our graduation ceremonies are professionally filmed, broadcast live on the web and footage posted on the Solihull College & University Centre website after the ceremony. In addition, personalised captioned clips of each graduate are made available by our partner StageClip. You can request that your StageClip is removed at any time. Please note, footage and photography may also be used by Solihull College & University Centre for media publications and advertising. Ceremony film will be archived for future reference.

All graduands and guests should be aware that they may feature in this footage. By registering to take part in your graduation ceremony and by requesting guest tickets, you are giving permission for your image to be recorded.
