

How to connect to HIVE (The College's new VDI solution)

First you will need to make sure your device has a suitable remote desktop client.

Windows 10

Already installed

IOS (Iphones and Ipads)

<https://apps.apple.com/gb/app/microsoft-remote-desktop/id714464092>

MacOS (Desktop Mac)

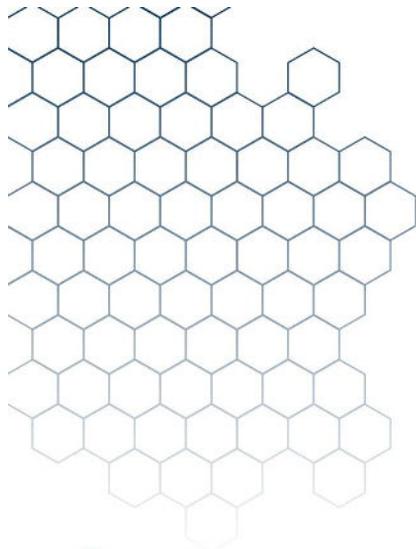

<https://apps.apple.com/gb/app/microsoft-remote-desktop-10/id1295203466?mt=12>

Android (Phones and Tablets)

https://play.google.com/store/apps/details?id=com.microsoft.rdc.android&hl=en_GB

Once you have a client installed Browse to

<https://hive.solihull.ac.uk/remote>

Username

Password

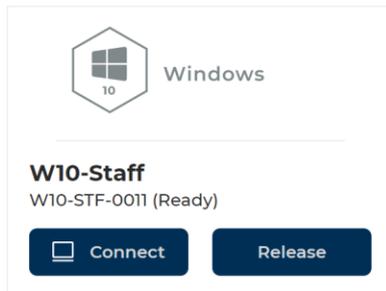

Realm

Login

Login with your college details and you will be presented with:

GUEST ASSIGNMENTS *1 total*

Settings

The screenshot shows a user interface for connecting to a remote desktop. At the top left, there is a hexagonal icon containing the Windows logo and the number '10', with the word 'Windows' to its right. Below this, the text 'W10-Staff' is displayed in bold, followed by 'W10-STF-0011 (Ready)'. At the bottom, there are two dark blue buttons: the first is labeled 'Connect' and features a small white icon of a computer monitor, and the second is labeled 'Release'.

Click on connect and once the download has finished you should be able to access your remote desktop.

N.B. The downloaded file does expire so you will need to go back to the website each time you connect.
